ALL public and multiple occupancy buildings have a legal requirement to be assessed for fire risk (Regulatory Reform (Fire Safety) Order 2005). **In practice the only safe option for a fire door hinge is a Certifire certified hinge.**

Hinge and pin is salt spray tested for 240 hours for both internal and external use

Warrington Certifire guarantee of fire proofing for 60 minutes. Suitable for FD30 & FD60 doors*

CE 1121 - ensures the latest construction guidelines compliance

Grade 13 = maximum door weight of 120kgs tested to 200,000 cycles (200,000 cycles or 25 years)

Maximum door weight is calculated using 3 hinges per door.

Grade of hinge according to BS EN 1935 compliance

Eliza Tinsley Ltd Certifire registration number giving Certifire guarantee

*In order to meet statutory requirements all fire doors must meet specified standards

! ALL BAGGED (PREPACKED) PRODUCT SUPPLIED WITH FIXINGS

HASPS & STAPLES

Eliza Tinsley hasps & staple range is designed to be used with most padlocks. Can be used for both door and gate. Safety Hasp and Staple fittings are concealed and cannot be unscrewed when padlock is secured in place. A key lockable version of this gives extra security. For an even more robust fitting see the heavy duty fittings available.

SAFETY HASP & STAPLE

LENGTH MM (INCHES)	FINISH	STAPLE TYPE	PACKED	UNITS PER BAG	BAGS PER BOX	ORDER CODE
